

# Why is Anthelio an Atos business?

## The sum is greater than the parts.

Anthelio Healthcare Solutions, the largest independent provider of healthcare technology solutions in North America, is now part of Atos, a leader in digital services around the world. Together, these two great companies are better than ever before, complementing, strengthening and broadening one another's portfolio of innovative technology solutions for the healthcare market.

## Good things happen when great companies unite

- Anthelio brings deep healthcare expertise to Atos, strengthening the company's knowledge base.
- Atos acquires Anthelio's industry leading end-to-end Revenue Cycle Management solutions and multi-vendor EHR based IT services competencies. Atos' Cloud offerings will enhance the platforms and offerings, making them more extensible and lowering deployment and hardware costs.
- Anthelio gains access to Atos' cutting-edge IT platforms and tools - ClickFox, Atos OneSource, Circuit, Atos Virtual Assistant and many more, resulting in enhanced capabilities and considerable cost savings for its customers.
- Atos expertise in Big Data and Analytics when combined with Anthelio's Data solutions and Patient Engagement products will enable healthcare customers with unique business intelligence, disease state coding effectiveness and benchmarking and more, providing invaluable insights.

## We're unbeatable together!

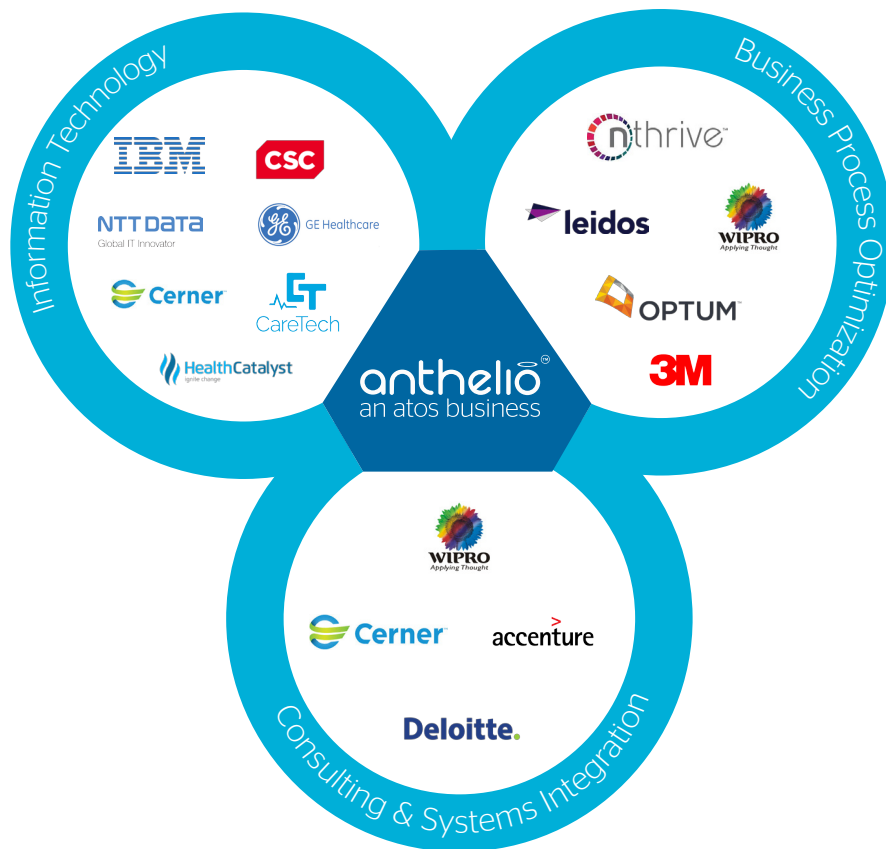

United, we provide an unparalleled scale and scope of cutting-edge healthcare technology solutions...right at your fingertips.
